

Dear colleagues!

The St. Petersburg School of Economics and Management, National Research University Higher School of Economics invites you to participate in “**Strategic Responses of Entrepreneurs and Entrepreneurial Organizations to Catastrophic Events**” panel of Analytics for Management and Economics Conference.

At the beginning of 2020 the international spread of COVID-19 has made a profound negative impact on the global economy in a short period of time, putting a third of the global population on a lockdown as a measure to slow down the spread of the virus. The spread of COVID-19 around the world has drastically changed consumer behavior due to quarantine measures, increasing unemployment and a creating a shift in overall purchasing behavior. Most of the industries indicated significant decrease in business activities with transport and travel being affected the most (McKinsey, 2020). Scholars from different countries, Russia, USA, Canada, will present a wide range of studies that deal with the responses of entrepreneurs and entrepreneurial organizations to catastrophic events, particularly the COVID-19 pandemics. We kindly invite researchers, practitioners, and doctoral students to join our panel session on Wednesday, 30 September, at 15:30 (GMT+3).

The COVID-19 pandemic has made the changes to the usual conference format; this year conference will be held online via Zoom. Panel session schedule is available below.

If you have any questions or concerns, please, contact us at gshirokova@hse.ru or javeryanova@hse.ru any time.
